Web Security

Kathmandu, Bāgmatī, Nepal

## Summary

Vianet Communication provided hands-on experience in delivering first-level technical support for internet connectivity, router configuration, and service issues. Collaborated with teams to diagnose and resolve technical issues, gaining exposure to LAN/WAN troubleshooting and customer-facing technical support.

Currently pursuing a BSc (Hons) in Ethical Hacking and Cybersecurity at Coventry University, with a focus on network security, risk assessment, and management. Certifications from Cisco in networking basics, initial configuration, and troubleshooting complement a strong foundation in cybersecurity fundamentals. Dedicated to leveraging academic knowledge and practical experience to contribute to robust and secure network infrastructures.

---

## Experience

Vianet Communication

Technical Support Expert

June 2025 - August 2025 (3 months)

Lalitpur District, Nepal

Delivered first-level support to customers for internet connectivity, router configuration, and service issues.

Diagnosed and resolved technical issues, minimizing downtime and improving customer satisfaction.

Gained practical exposure to LAN/WAN troubleshooting and customer-facing support.

Nepal Telecom

IT and NT Networks

February 2025 - April 2025 (3 months)

Lalitpur District, Nepal

Assisted in maintaining and troubleshooting enterprise network systems.

Configured and supported Cisco routers, switches, and core network services.

Worked with TCP/IP, DNS, DHCP, and other essential protocols to support organizational infrastructure.
